For fast, easy ordering, go to www.freeman.com

ELECTRICAL OUTLETS (Double Price for 24 Hour Service)

Power includes delivery of the service to one location at the rear of the booth in peninsula and inline booths. Please see Electrical Labor Order Form for rates and instructions if you require outlets in other locations, have lights or electrical items to hang or erect, have orders for power of 208v or higher, or have other electrical requirements.

Transformer to Boost 208V to Approx. 230V - $4.00 per Amp (20 Amp Min.)

| Qty | Amps | ______ | ______ = $ ______ |

SPECIAL LIGHTING (Price Includes Power & Labor for Installation)

| Single Light Stand | ______ | 110.00 | 165.00 = $ ______ |
| Double Light Stand | ______ | 117.00 | 175.50 = $ ______ |
| Arm Light | ______ | 130.00 | 195.00 = $ ______ |

* May require labor and/or lift at additional charge. Please contact SanAntonioUtilities@freeman.com for estimated charges.

For single or double light stand, price includes installation along the side rails of an inline booth. Placement elsewhere will require additional labor and materials.

Extension cords and power strips are available for rental at the Freeman Service Desk.

ADDITIONAL INFORMATION

FOR ADVANCE PAYMENT PRICE
Your order with full payment along with a floor plan indicating main power location and distribution points, if applicable, must be received prior to:

DEADLINE DATE OF:

LATE DATE

MULTIPLE OUTLET LOCATIONS / ISLAND BOOTHS
A scaled floor plan is required for orders with multiple outlet locations and/or island booths. Detailed examples are provided on the following page. If a power location or main drop in an island booth is not provided prior to show move-in, a location will be determined by Freeman in order to maintain delivery schedules. Relocation of the service will be charged on a time and material basis.

ISLAND BOOTHS
For island booths with no labor ordered, there is a 1/2 hour minimum installation charge and a 1/2 hour minimum dismantle charge.

INLINE AND PENINSULA BOOTHS
Power will be placed in the back of the booth unless otherwise specified.

24 HOUR SERVICES
If an uninterrupted power supply is required for the full duration of the show, please order 24 hour power. Electricity is turned on 30 minutes prior to show opening and turned off 30 minutes after show closes on show days. Power will be turned off immediately after final show closing. If you require power outside actual show hours, special arrangements should be made in advance. Additional charges may apply.

SEPARATE OUTLETS
Separate outlets should be ordered for each piece of equipment and/or each power location.

HANGING SIGNS
Show site prices will apply if your hanging sign is not received in advance at the warehouse prior to the warehouse shipping deadline date.

CANCELLATION
A 50% refund will be applied to electrical services cancelled after installation. Refunds will not be issued for materials and/or labor charges related to the installation.

OVERHEAD POWER
If you require your power from overhead, additional materials and labor may be incurred. Please contact SanAntonioUtilities@freemanco.com.

TOTAL COST

Outlet(s) $ ______
Lighting $ ______
Tax 8.25% $ ______
GRAND TOTAL $ ______
OTHER:
1. Labor is required for any and all electrical work over and above the installation of the main power drop. Please see the Electrical Labor form for complete details. Please complete the labor order form.
2. Dismantle labor will be automatically charged at 50% of the installation time and rounded to the nearest half hour.
3. All material and equipment provided by Freeman is for rental purposes only and remains the property of Freeman. All equipment will be removed at the close of the show by Freeman.
4. All equipment regardless of power source, must comply with Federal, State and local codes as well as any applicable local recognized electrical authorities and standards. Freeman reserves the right to inspect all electrical devices and connections to ensure compliance with all codes and proper permitting. Freeman is required to refuse connections where the exhibitor wiring is not in accordance with local electrical code and permitting.
5. Standard wall and other permanent building utility outlets or sockets are not part of booth space and may not be used by exhibitors unless electrical services have been ordered.
6. Exhibitors’ cords must be a minimum of 14 gauge 3 wire with ground and must be flat when used for floorwork. All multi-outlet devices (eg - power strips) must have circuit protection. All exposed non-current carrying metal parts of fixed equipment, which are liable to be energized, shall be grounded.
7. Exhibitor equipment will be modified to conform to Freeman receptacles. If an outage is the result of an exhibitors’ equipment, then a labor charge may be assessed. Labor and materials to install or change a cord cap or fix an outage will be billed on a time and material basis.
8. Exhibitors with hardwall displays must arrange for power to be installed inside the booth or provide access.
9. Power sharing is not permitted between exhibitors.
**ELECTRICAL SERVICES**

From under carpet wiring to overhead lighting, Freeman has the power to simplify your electrical needs and installation. We’ve answered your most common questions below to help you place your order or prepare for a detailed discussion. Whether you require basic household/office power or a more technical installation for equipment, audio-visual presentations or truss lights, our electrical specialists and qualified electricians are always available to assist you.

**How do I know how much power I need?**

First, review a layout of your exhibit, noting all of the items in it that require power. Consider lighting, computer equipment, and your own product. Are you bringing or renting any a/v equipment or ordering catering services that might need power? Will you be using a lead retrieval machine? If it’s an item that plugs into a standard wall outlet found in a home or office (in North America), it will require 110/120 volt power. 208 or 480 volt power is generally used for machinery or industrial cooking devices and is ordered by single or 3 phase.

Next, mark the voltage and wattage or amperage (referred to as “load”) (100 watts = 1 amp) of each piece of equipment at it’s location in the booth. This information should be provided on a name plate or stamp usually located on the back or bottom of the equipment. If not indicated, check our accompanying electrical usage guide for estimated wattages for common items used at trade shows or call your rental company/caterer for specifics. For lighting, loads are dictated by the wattage of the bulbs. Arm lights included with Freeman exhibit packages use 200 watt bulbs. Keep in mind that you need to order power for any lighting within your booth unless the lights are ordered directly from the Electrical Department (those listed on the Freeman electrical order form).

Finally, total the wattage for the 120 volt devices in each area and select an outlet that meets or exceeds that total. Separate outlets should be ordered for each piece of equipment and/or each power location to help minimize tripping/power outages. It is always safer to slightly overestimate your power requirements. Wattage or amperages cannot be combined for 208 or 480 volt apparatus. Please order separate outlets for each.

**Do I need to order labor?**

As the official service contractor, electrical installations must be performed by Freeman union labor. Labor is required for any electrical work over and above the delivery of outlets to the back wall of inline booths. Labor orders will automatically be input upon receipt of an electrical layout for under carpet installation (floor work) or to connect any 208 volt or higher loads (hook up). Dismantle labor for electrical services is calculated at 50% of the installation time since much of the work is performed on a mass basis after booths are removed from the exhibit hall. Please see the electrical labor order form for further details, rules and regulations.

**What is an electrical layout and why do I need one?**

Like your own home, electrical boxes and wiring should not be visible once the exhibit is completed. At show site, they are the first things to be installed so that they can be hidden by drape, walls or counters and under flooring or carpet. Electricians, therefore, work on a blank slate. A good electrical layout or floor plan provides them with a simple overhead view of your booth indicating the locations and load of each electrical outlet and the orientation of your booth within the show itself. The layout should be to scale and provide specific measurements to each outlet along with surrounding aisle or booth numbers to ensure accuracy. For island booths, a main power location must also be indicated as it is the location from which other outlets are fed. Please see the sample layouts and electrical grid for further information.

When a layout and credit card are provided in advance, Freeman makes every effort to ensure that the floor work is completed before you arrive so that there is no delay in assembling your booth. Once carpet is laid, installing or changing electrical services becomes much more difficult and potentially costly.

Please note that layouts, complete with mandatory information, are required prior to the deadline date for electrical orders to be eligible for advance rates. Layouts are not required if all outlets are located at the back wall in inline booths.

**Is the price for power per day?**

Outlet or connection prices are typically for an entire show.

**What is 24 hour power?**

Many facilities these days are energy conscious and therefore turn off power overnight during show days. Power is turned off 1/2 hour after the show closes at the earliest and restored no later than 1/2 hour before the show opens the following day. 24 hour power is, as it sounds, power that is continuously on 24 hours per day.

If your booth includes, for example, refrigeration equipment, an aquarium or programmable apparatus that depends on uninterrupted power, you should consider ordering 24 hour service. Power is usually not turned off during move-in or move-out.

**Where does the power come from?**

Depending on the facility, the power can come from overhead catwalks, floor ports, columns, wall outlets or a combination of these sources. Check with the local Freeman branch office for more information.

**Where will my power be located?**

In-line and peninsula booths will find their main power source on the floor somewhere along the rear drape line of their booth. Island booths need to submit an electrical layout. Please see the sample layouts and electrical grid for further information.

**What if I need power at another location besides the rear of my booth? What if I have multiple power locations?**

Exhibitors requiring power at any location other than a back wall must submit an electrical layout. Please see the sample layouts and electrical grid for further information.

**How many places will I have to plug in? How many things can I plug in?**

For planning purposes, you should always assume that there is only one connection point per outlet ordered. Power strips can provide additional sockets but do not confuse having more places to plug in with additional power. For example – An order is placed for a 500 watt outlet. A track light with 4 – 100 watt bulbs is plugged in to a power strip connected to the outlet, using 400 of the 500 watts. Any lighting or equipment now plugged in to a second socket may not exceed 100 watts.

Also keep in mind that power strips are designed, for safety purposes, to trip at 1500 watts or 15 amps. Using a power strip with a 2000 watt (20 amp) outlet will reduce it to a 1500 watt outlet.

All orders exceeding 120 volt/20 amps provide one connection point only, cannot accommodate power strips and require labor for installation.
Can I bring my own extension cords and power strips? (Also known as plug strips, multi strips, etc.)
Exhibitors may use their own extension cords and power strips under the following conditions:
- The equipment must be 3 wire, 14 gauge minimum with a ground.
- The extension cords must be flat if they are to be laid under carpet. (Labor is required to lay the cords.)
- All power strips must have circuit protection.

Can I run my extension cords under the carpet myself?
For safety reasons, exhibitors are not allowed to run any electrical wiring under any type of floor covering or where they may be concealed in the booth structure. The show’s electrical contractor is liable for electrical installations and therefore must perform all floor or booth work.

Will my floor work be completed before I arrive?
Every attempt is made to have floor work completed prior to carpet installation if you have submitted the following:
- A completed electrical order form.
- A valid and authorized credit card to be kept on file for the company.
- An electrical layout indicating the main power location, dimensions to each power location, the power required at each location, and surrounding aisle or booth numbers to determine orientation of the booth.
Labor and material charges apply.

When will my power be turned on?
Power is only guaranteed to be installed before the show opens. If Freeman is allowed early access to the facility, power is normally ready the first day of move-in for exhibitors but any special requests such as temporary chain motor power, programming machinery or testing equipment should be noted on your order.

Do I need lighting?
Lighting can dramatically change the impact of an exhibit, no matter the size. Used effectively, lighting can emphasize specific areas of a booth or highlight products. Also, an exhibit will appear dark and uninviting if the surrounding booths are lit and yours is not.

Can I hang my own lights?
10 x 10 booths with pop-up displays (a display that can be assembled in less than 30 minutes without tools) can hang their own lights and plug them in without ordering labor. Typically, exhibitors themselves can hang up to 7 lights as long as they require no more than 20 amps in total but it is best to clarify with the local branch. If a decorating company (including Freeman) has been contracted to install a display, electrical labor is required to install the lights. Due to union contracts, no other union is allowed to install electrical equipment.

Do I need to order power for my lighting?
Exhibitors ordering Electrical Services lighting (those listed on the Freeman electrical order form) do not need to order power. It is included in the rental. Exhibitors supplying their own lighting or renting lights need to order power. Labor may be required to hang the lights.

Do I need to order labor to plug in my lights or equipment?
Most 120 volt connections do not require labor. Exhibitors are welcome to plug in their own standard office devices. Labor is required for all 208 or 480 volt connections and if lights or equipment need wiring or if electrical cords are to be run under the carpet or in concealed areas to ensure that all electrical codes and building rules are met.

How can I save money and frustration when ordering electrical services?
Most importantly, be sure to submit your order before the discount price deadline date. If an electrical layout is needed, it also must be received, complete with mandatory information, before the deadline date to be eligible for discount pricing. Late orders can be subject up to a 50% increase in cost because of the behind-the-scenes planning required to distribute power.

Don’t underestimate your power requirements and work within the local rules, regulations and union jurisdictions. They have been implemented to avoid problems. While it may seem simple to plug in lights and equipment, it is not uncommon for exhibit or non electrical staff to overload circuits. Trouble calls can become expensive when it takes time to find the source of a problem.

If unsure about labor, call us for direction and if necessary, place a “will call” order before the discount price deadline date. You will only incur a charge if labor is dispatched to your booth but you’ll have secured the advance pricing. And, check in with the electrical or service desk as soon as you know you need labor, not at the time you want the electricians in your booth. It will help to avoid delays as we can schedule accordingly.

Lastly, try to resolve any disputes at show site. It is much easier to discuss electrical issues when both parties can physically review the installation.

Additional questions?
Call customer service at the number listed on the Quick Facts and ask for the Electrical Services Department. For fast, easy ordering, tools, and helpful hints go to www.myfreemanonline.com.

Forklift w/operator - OT ............................................. $ 191.00 $ 267.50
Man Cage ............... $ 53.00 $ 53.00

Dismantle labor will be charged at 50% of the total install time rounded to the next half hour.

• Show site price applies to all labor orders placed at show site.
• Start time guaranteed only at start of working day.

Review the list of work below to determine if electrical labor is required in your booth. None of the following services may be performed by other Unions or I & D houses as it falls under electrical jurisdiction. Time and material charges will apply. Please visit the Freeman service desk to confirm that you are ready for service.

Note: For more information and an example of a completed floorplan please see the following page.

FLOOR WORK:

Floor work is the distribution of electrical under carpet and flooring.

☐ OK TO PROCEED WITHOUT EXHIBITOR PRESENT:

Complete Before: Date__________ Time__________

Work is completed prior to your arrival. Freeman must receive detailed blue prints/floor plans for power distribution under carpet.

PRINT NAME: ____________________________

AUTHORIZED SIGNATURE: ____________________________

☐ EXHIBITOR SUPERVISION (DO NOT PROCEED)

BOOTH WORK:

Booth work is any of the following. Please check all that apply:

☐ Distribution of electrical overhead (more than one drop location in your booth).
☐ Distribution of electrical through booth structure.
☐ Mounting of plasmas/LCD monitors and lights.
☐ Connection or hard wiring of all exhibitor equipment.
☐ Lighting used as spot or flood lights.
☐ Assembly and installation of all lighting from truss or beams (including assembly and hanging of truss).
☐ Wiring of overhead signs.
☐ Installation of electrical headers and/or light boxes.
☐ Other

Special Instructions: ____________________________

For fast, easy ordering, go to www.freeman.com
ELECTRICAL INSTRUCTIONS

1. Labor rates are based on current wage scales and are subject to change in the event of a wage increase after rates have been published.

2. A minimum charge of one hour is applicable to all labor requests. Additional time on the same day is billed in 1/2 hour increments. Continuations to another day are a minimum of 1 hour.

3. Labor must be picked up at the Freeman service desk. Charges for labor commence at time of dispatch to service the labor call. A one hour minimum will apply if an exhibitor representative is not present at the time of call or reschedules the call, unless 24 hour advance notice is received in writing.

4. Labor charges will include the time for electricians to gather the necessary tools and material for the job, have their work checked by the client and return the tools and material to the supply area.

5. Exhibitors may supply their own 14 gauge 3 wire, extension cords and/or power strips, both of which must be grounded and UL approved.

CANCELLATION POLICY

A 50% refund will be applied to electrical outlets cancelled after installation. Refunds will not be issued for materials and/or labor charges related to the installation.

EXAMPLE OF PLAN AND INFORMATION REQUIRED TO COMPLETE FLOORWORK

Please indicate the following on the floor plan.

1. Location and load of main power drop - please provide specific dimensions and wattages/amperages.

2. Location and load of all outlets - please provide specific dimensions and wattage, amperage and voltage.

3. Booth orientation - please provide surrounding aisle and/or booth numbers.
The following wattages are approximate and are provided to help you estimate your power usage. To assist in estimating we recommend that you refer to the name plate or stamp usually located on the back or bottom of any electrical apparatus and order the corresponding outlet for each piece of equipment to avoid tripping/power outages during the event.

The formula for wattage is voltage x amperage (120 volt x 1 amp = 120 watts), 5 - 100 watt light bulbs = (5x100 = 500 watts)

</table>
The grid below may be printed to layout your electrical requirements for booths up to 40 x 40 or used as a sample to develop your own plan for larger exhibits. Please complete as clearly as possible, indicating the following:

1. **Location of the main power drop.** Power needs to be distributed from one location at which a panel or other piece of electrical equipment will be installed. It is recommended that this equipment be placed in a closet, under a table/desk or in another location that keeps it out of sight. Please provide specific dimensions.

2. **Location and load of all outlets.** Please provide specific dimensions and wattages/amperages. *Please do not simply place an X where power is required.*

3. **Booth orientation.** Please provide surrounding aisle and/or booth numbers, particularly for island booths. Also, please try to orient your booth to the overall floor plan so that the diagram does not have to be rotated.

---

**SHOW NAME _______________________________________________________ DATES ___________________**

**COMPANY NAME ___________________________________________________ BOOTH # _________________**

---

A measurement scale can be applied as necessary to reflect the size of your booth.

- **10 x 10 use 1 square = 1/4 foot**
- **20 x 20 use 1 square = 1/2 foot**
- **40 x 40 use 1 square = 1 foot**
SAMPLE LAYOUTS

IN LINE BOOTHs
Power is run or dropped to in line booths along the back walls or drape line of multi booth sections. The “main power locations” therefore are always located at the back of in line and peninsula booths. Outlets may not be in the exact center of the back wall. 120 volt outlets are shared by back to back booths. Example: Outlet =

<table>
<thead>
<tr>
<th># 401</th>
<th># 405</th>
<th># 407</th>
<th># 409</th>
</tr>
</thead>
<tbody>
<tr>
<td>20 x 20 peninsula</td>
<td>10 x 20 in line booth</td>
<td>10 x 10 in line booth</td>
<td></td>
</tr>
<tr>
<td>Power will be at rear drape line</td>
<td></td>
<td># 504</td>
<td># 506</td>
</tr>
</tbody>
</table>

Electrical layouts are required whenever an outlet is needed at any other location within the booth except for the back wall. Exact measurements and/or comments that clearly indicate outlet locations must be included. Examples based on above floor plan:

20 x 20 Peninsula – Booth # 401
Order = 2-10 amp, 1-20 amp outlets

10 x 20 In Line – Booth # 409
Order = 2 x 5 amp outlets

Please place outlets in front corners of booth
ISLAND BOOTHS

Electrical layouts are always required for island booths and must include the following information:

1. **Main Drop.**
   Since there is no back wall in an island, the exhibitor supplies the location of the main drop, whether one or multiple outlets are ordered. When it will be the point from which power will be distributed to other outlets in the booth, a panel or other piece of electrical equipment (no larger than ? x ?) will be installed at the main drop. For this reason, it is recommended that main drops be located in a closet, under a table/desk or in another area that keeps it out of sight. Measurements must be provided to the main drop.

2. **Location and load of all outlets.**
   Again, dimensions must be provided to all satellite outlets along with the load of each outlet. It is best to indicate voltage, phase and amperage for all outlets once an order exceeds 120 volt service.

3. **Booth orientation.**
   Providing reference points such as surrounding aisle and/or booth numbers defines how an island booth is oriented to the overall show floor plan. In other words, which side is which? It is best to draw your layout relative to the show floor plan so that both are facing the same direction. Examples:

![Diagram showing section of show floor plan with booth numbers and locations of outlets.]

**20 x 20 Island – Booth #401**
Order = 1 x 208 volt, 3 phase, 10 amp + 120 volt, 2 x 20 amp + 2 x 5 amp outlets

![Diagram showing detailed electrical layout of Booth #401 with marked outlets and measurements.]

   https://www.freemanpay.com/474294

2. Submit your order
   Upload your order forms through the same link used to submit your payment information.

- Both your order and your payment must be received by the discount deadline date to guarantee discount pricing.
- Orders received without payment or after the discount price deadline date will be charged at the standard price.
- Copies of invoices may be picked up from the Freeman Service Center prior to show closing.
PAYMENT & LABOR

YOU ARE ENTERING A CONTRACT WHICH LIMITS YOUR POSSIBLE RECOVERY IN CASE OF LOSS OR DAMAGE.

The terms and conditions set forth below become a part of the Contract between FREEMAN and you, the EXHIBITOR. Acceptance of said terms and conditions will be construed when any of the following conditions are met:

• THE METHOD OF PAYMENT FORM IS SIGNED; OR
• AN ORDER FOR LABOR, SERVICES AND/OR RENTAL EQUIPMENT IS PLACED BY EXHIBITOR WITH FREEMAN; OR
• WORK IS PERFORMED ON BEHALF OF EXHIBITOR BY LABOR SECURED THROUGH FREEMAN.

DEFINITIONS

For purposes of this Contract, “FREEMAN” or “The Freeman Companies” means Freeman Expositions, LLC., Freeman Exhibitions, Ltd., Freeman Audio Visual, Inc., Exhibit Surveys, LLC., Freeman Exhibit, Freeman Transportation, FreemanXP, LLC., Stage Rigging, LLC., The Freeman Company, Freeman Electrical, LLC., Freeman Digital Ventures, LLC., and their respective employees, directors, officers, agents, assigns, affiliated companies, and related entities

including, but not limited to, any subcontractors FREEMAN may appoint. The term “EXHIBITOR” means the Exhibitor, its employees, agents, representatives, and any Exhibitor Authorized Representatives (“EAC”).

PAYMENT TERMS

Full payment, including any applicable tax, is due in advance at show site. All payments must be in U.S. secure funds and all checks must be drawn on a U.S. bank. Orders received without advance payment or after the deadline date will incur additional charges as indicated on each order form. Payment for Audio Visual services and equipment is due in advance of move-in, unless otherwise agreed in writing with Freeman. All materials and equipment are on a rental basis for the duration of the show or event and remain the property of FREEMAN except where specifically identified as a sale. All rentals (excluding Audio Visual equipment and computers) include delivery, installation, and removal from EXHIBITOR’S booth. Rental charges from Audio Visual equipment and computers do not include la-bor, delivery, electrical services or removal of the equipment from the booth. In case of cancellation of any orders or services by EXHIBITOR, a one-hour “per person, per hour” charge will be applied for all labor orders that are not canceled in writing at least 24 hours prior to the scheduled start time. If Prestige Carpet, Custom-Cut Carpet, Modular Rental Exhibits and any other custom-order items or services have already been provided at the time of cancellation, fees will remain at 100% of the original charge. Audio Visual orders cancelled within 7 days from the show opening date will be charged a one-day rental rate on equipment. On-site cancellation of Audio Visual services will result in a one-day rental charge of equipment and any applicable labor. If the Show or Event is canceled because of re-a-sons beyond FREEMAN’S control, EXHIBITOR remains responsible for all charges for services and equipment provided up to and including the date of cancellation. FREEMAN will not issue refunds to EXHIBITOR of any payments made before the date of cancellation. It is EXHIBITOR’S responsibility to advise the FREEMAN Service Center Representative of problems with any orders, and to check the EXHIBITOR’S invoice for accuracy prior to the close of the Show or Event. If EXHIBITOR is exempt from payment of sales tax, FREEMAN requires an exemption certificate for the State in which the services are to be used. Resale certificates are not valid unless EXHIBITOR is rebilling these charges to its customers. For International EXHIBITORS, FREEMAN requires 100% prepayment of advance orders, and any order or services placed at show site must be paid at the show. For all others, should there be any pre-approved unpaid balance after the close of the show; terms will be net, due and payable in DALLAS, TEXAS upon receipt of invoice. Effective 30 days after invoice date, any unpaid balance will bear a FINANCE CHARGE at the lesser of the maximum rate allowed by applicable law, or 1.5% per month, which is an ANNUAL PERCENTAGE RATE of 18%, and future orders will be on a prepaid basis only. If any finance charge hereunder exceeds the maximum rate allowed by applicable law, the finance charge shall automatically be reduced to the maximum rate allowed. If any excess finance charge received by FREEMAN shall be either applied to reduce the principal unpaid balance or refunded to the payee. If past due invoices or invoice balances are placed with a collection agency or attorney for collection or suit, FREEMAN agrees to pay all legal and collection costs. These PAYMENT TERMS AND CONDITIONS SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS. In the event of any dispute between the EXHIBITOR and FREEMAN relative to any loss, damage, or claim, such EXHIBITOR shall not be entitled to and shall not withhold payment, or any partial payment, due to FREEMAN for its services, as an offset against the amount of any alleged loss or damage. Any claims against FREEMAN shall be considered a separate transaction, and shall be resolved on its own merits. FREEMAN reserves the right to charge EXHIBITOR for the difference between the EXHIBITOR’S estimate of charges and the actual charges incurred by EXHIBITOR, or for any charges that FREEMAN may be obligated to pay on behalf of EXHIBITOR, including without limitation, any shipping charges. If EXHIBITOR provides a credit card for payment and the credit card transaction is declined, EXHIBITOR hereby authorizes Freeman to process the outstanding balance in multiple smaller increments that total the amount of the outstanding payment obligation. In the event that a THIRD PARTY (AGENT) orders on behalf of the EXHIBITOR and the named THIRD PARTY does not discharge payment of the invoice prior to the last day of the show, charges will revert back to the EXHIBITOR. All invoices are due and payable upon receipt, by either party.

ELECTRICAL

If FREEMAN provides electrical services, claims will not be considered, or adjustments made unless filed in writing, by EXHIBITOR, prior to the close of the event. FREEMAN is not responsible for any damage or loss caused by the loss of power beyond its control and EXHIBITOR agrees to hold FREEMAN, its officers, directors, employees and agents harmless from such power loss. IN NO EVENT SHALL FREEMAN BE LIABLE FOR ANY INDIRECT OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS) EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, WHETHER UNDER THEORY OF CONTRACT, TORT (INCLUDING NEGLIGENCE), PRODUCTS LIABILITY OR OTHERWISE. EXHIBITOR shall indemnify and hold harmless FREEMAN, its officers, directors, employees, and agents from and against any and all claims, liabilities, damages, fines, penalties or costs of whatsoever nature (including reasonable attorneys’ fees) arising out of or in any way connected with EXHIBITOR’S actions or omissions under this Agreement. Please note that electrical services are NOT automatically included in Audio Visual rentals and must be ordered separately from the designated electrical provider.

LABOR UNDER THE SUPERVISION OF EXHIBITOR RESPONSIBILITIES

EXHIBITOR shall be responsible for the performance of labor provided under this option. It is the responsibility of EXHIBITOR to supervise labor secured through FREEMAN in a reasonable manner as to prevent bodily injury and/or property damage and also to direct them to work in a manner that is in compliance with FREEMAN’S Safe Work Rules and/or Federal, State, County and Local ordinances, rules and/or regulations, including but not limited to Show or Facility Management rules and/or regulations. If any labor secured through Freeman is conducting overhead work, the Exhibitor is responsible for ensuring that everyone in the area of overhead work is wearing a hard hat. If the Exhibitor does not have its own hard hats, Freeman can assist with obtaining them. It is the responsibility of EXHIBITOR to check in with the Service Desk to pick up labor, and to return to the Service Desk to release labor when the work is completed.

INDEMNIFICATION

EXHIBITOR agrees to indemnify, hold harmless, and defend FREEMAN from and against any and all demands, claims, causes of action, fines, penalties, damages, liabilities, judgments, and expenses (including but not limited to reasonable attorneys’ fees and investigation costs) for bodily injury, including any injury to FREEMAN employees, and/or property damage arising out of work performed by labor provided by FREEMAN but supervised by EXHIBITOR. Further, the EXHIBITOR’S indemnification of FREEMAN includes any and all violations of Federal, State, County or Local ordinances, “Show Regulations and/or Rules” as published and/or set forth by Facility or Show Management, and/or directing labor provided by FREEMAN to work in a manner that violates any of the above rules, regulations, and/or ordinances.

IMPORTANT

PLEASE REFER TO FREEMAN’S “MATERIAL HANDLING TERMS & CONDITIONS” AS IT RELATES TO MATERIAL HANDLING SERVICES AND TO THE “SERVICE REQUEST & SHIPPING INSTRUCTIONS CONTRACT” AS IT RELATES TO TRANSPORTATION SERVICES. CONTRACT TERMS DEPEND ON THE NATURE OF SERVICES SECURED BY EXHIBITOR THROUGH FREEMAN. TERMS & CONDITIONS MAY VARY FOR EACH TYPE OF SERVICE ORDERED THROUGH FREEMAN.
